

## **JERUSALEM STUDENTS PROJECT**

*The long term aspiration of Jesus the King Council is this - If we could keep the Christian children in school in Jerusalem by financially assisting their parents who at present cannot afford school tuition for their children, we will create stability and a continued presence of Christians within the City. If we do this in a large enough scale for the foreseeable future we will encourage the parents of those Christian children to stay in Jerusalem and those very same children will grow up, get educated and call Jerusalem their home and eventually prosper due to their education, perhaps create businesses of their own and have families who in turn will stay and grow in Jerusalem and populate the City.*

*What an amazing idea and bold idea, what a superb plan, how unselfish. It is no wonder Jesus the King Council received the International Award for Youth.*

*I am hard pressed to think of a more worthy cause. My congratulations, my praise and admiration go out to the Past Grand Knight Hikmat Dandan and the entire Council and I wish them continued success in their future promotion of this program.*

*Vivat Jesus,*

*SK Eardley Adams, District Deputy, Past Grand Knight and Faithful Navigator*
