Summer 2013

Worthy District Deputies and Grand Knights

Good News for our Ontario jurisdiction. One of our Councils, Jesus The King Council 15045, won a prestigious Youth Project Award at the Supreme Convention in San Antonio, Texas. The project is referred to as "Jerusalem Students".

Some of you may have heard of this project, which also won an Award at the Ontario State convention last May.

The GK SK Hikmat Dandan went to the Supreme Convention to receive the Award in person. Upon his return to Toronto, he was interviewed on Salt & Light Catholic TV. Find below the link to watch the interview:

Let us celebrate this achievement by sharing it with our Brother Knights. It should make us feel proud of being Ontario Knights and thus be able to carry the message of the good works of the Knights to our parishes and community at large.

The success of the "Jerusalem Students" project shows that many of the good projects we carry out in Ontario, have the potential of being winners on an international level. With a little more work, it is possible. Promoting the work and publicizing it through mass media can make a difference. For example, this project was promoted by setting up a website and had pictures and brochures available. The following is the link to the website:
